Letter From the President

Dear Friends and Alumni:

Thank you for helping us support ETHS by raising more than \$272,000 in 2010. Thanks to your investment in ETHS, we have been able to supplement tax dollars and accomplish many projects that preserve and improve our institution.

We invite you to learn more about the [Renewable Energy and Ecology Labs](#) for a sense of the impact of your giving.

This year, we will continue to support new and [improved facilities](#) at ETHS in order to provide students with a world class public school experience. We look forward to working with you in 2011 for excellence at ETHS.

Sincerely,

Erika (Engelmann) Carey '88

ETHS Educational Foundation Board President.

Major Donor Offers Generous Challenge!

Harry A. Brandt, '52 is spearheading an effort to memorialize longtime friend and classmate Barry Zwick, who passed away on June 15, 2010.

Mr. Brandt has pledged to match donations dollar for dollar up to \$100,000 in an effort to create an endowed scholarship in Barry's name. \$5,000 will be awarded annually to a deserving college-bound student of strong character who played football at ETHS for four years.

Contributions may be sent to the ETHS Educational Foundation with "Barry Zwick Scholarship" noted on the memo line.

Thanks to your support we are almost up and running!

\$80,000 of the \$133,000 contributed in response to our year-end appeal will support the construction of labs, due to be completed in summer of 2011.

The renewable energy lab is uniquely designed to be both fully operational and technologically transparent in order to serve as an educational hub for the study of wind, solar, and geothermal "green" energy technologies. Following its construction, our focus will turn to inservicing faculty and designing curriculum modules that will take full advantage of the labs' distinctive features, ultimately making renewable energy education accessible to all ETHS students.

ETHS is Going Wireless!

Our latest funding priority will be the installation of wireless technology throughout campus. The cost will be in the neighborhood of \$250,000.

The benefits of going wireless include mobility, ease of installation and flexibility, and scalability of technology in the classroom. These qualities will greatly enhance the ability to collaborate and enrich learning opportunities.

Please contact [Fran Caan](#) to learn about the various corporate giving opportunities this initiative will offer.

Parents Emeritus Fall Party 2010

The Parents Emeritus Fall Party on November 12, 2010 grossed over \$10,000.00!

Seventy-four ETHS Booster Club alumni caught up with their old friends and enjoyed dancing to the music of Blue Grass Advocates.

The Parents Emeritus group was organized by Jane Head and Bridget Schroeder in an effort for former ETHS Booster parents to maintain close

ties to each other and to ETHS while continuing (in true Booster spirit) to support ETHS as an integral part of the community.
