## EXECUTIVE SUMMARY

The following report provides analyses of assessment results and other key academic indicators. Key highlights include:

- Students whose EXPLORE scores indicate they are not on target for college and career readiness are expected to gain 4 points on the ACT, and students whose EXPLORE scores are on target are expected to gain 5 points on the ACT. In 2015, 71\% of students met the expected growth on their ACT, compared to 74\% in 2014 and 75\% in 2013.
- In 2014-15, $85 \%$ of grade 11 or 12 students were enrolled in at least one honors or AP course in the first semester, compared to 82.4\% in 2014 and 85\% in 2013.
- Seventy-nine percent ( $78.8 \%$ ) of the 2015 graduate cohort were enrolled in at least one AP course, compared to $74.0 \%$ of the 2014 graduates and $69.6 \%$ of the 2013 graduates.
- Of the 2015 graduating seniors enrolled in at least one AP course, $74.1 \%$ earned a score of 3 or higher on at least one AP exam. This compares favorably to 66.3\% of the 2014 graduates and $68.9 \%$ of the 2013 graduates.
- In 2015, 74\% of graduating seniors met the ACT College Readiness Benchmark in English with a score of 18 or higher, compared to 71\% in 2014 and 73\% in 2013.
- In 2015, 61\% of graduating seniors met the ACT College Readiness Benchmark in math with a score of 22 or higher, compared to 57\% in 2014 and 59\% in 2013.
- According to National Student Clearinghouse data, about 82\% of 2013 graduates continued in a post-secondary institution within two semesters of graduating from ETHS.

The 2014-15 IL Report Card has not yet been released. The following data is not yet available: freshman on track indicator, four-year and five-year graduation rates. This report will be updated to reflect that data as soon as it is available.

## Purpose of Report

The purpose of this report is to communicate ETHS' progress toward meeting some of its goals for the 2012-13, 2013-14 and 2014-15 school years. Only the goals that directly reflect the academic success of students are included.

DISTRICT 202 GOALS 2012-2015
Goal \#1: Increase each student's academic trajectory as demonstrated through multiple measures.

- $100 \%$ of students will meet expected growth; work toward $100 \%$ of students exceeding expected growth from EXPLORE to ACT by race, income status and IEP. Measure: EPAS System (EXPLORE to ACT)
- $71 \%$ of graduating seniors will pass (score of 3 or higher) at least one AP test prior to graduation. Measure: Advanced Placement (AP) examination scores
- $84 \%$ of grade 11 and 12 students will be enrolled in honors and AP courses by race and income. Measure: Course enrollments.
- $80 \%$ of students will continue in school within two semesters of graduating high school. Measure: National Student Clearinghouse database.
- $100 \%$ of freshmen on track to graduate by race, income status and IEP. Measure: Earned course credit in core subjects.
- $100 \%$ of students will be on track for ACT College Readiness benchmarks in English and math. Measure: ACT

Goal \#2: Provide individualized supports, programs, services and curricula to ensure that each student will demonstrate significant academic and social-emotional growth during their experience at ETHS.

- $100 \%$ of students will graduate. Measure: ISBE-calculated graduation rate.

## Definitions

## Student Groups

Student data is analyzed by race/ethnicity, income and special education status.

- Race/ethnicity groups reflect the federal reporting categories - American Indian or Alaska Native, Asian, Black or African American, Hispanic or Latino, Native Hawaiian or Other Pacific Islander, Two or More Races and White. In this report, race/ethnicity groups are only included if their sample size is greater than 10.
- Income groups reflect students' free or reduced price lunch status. Students who qualify for either free or reduced price lunch are categorized as low income. All other students are categorized as non-low income.
- Special education groups reflect students' Individualized Education Program (IEP) status. Students who have an IEP are categorized as special education and those who do not are categorized as non-special education.

Groups that have a small number of students should be interpreted with caution since their results may fluctuate widely from year to year.

## ACT - General

The ACT assessment is a college admissions and placement test that focuses on the skills important for students to successfully transition from high school to college. The ACT includes tests of English, math, reading and science reasoning. Scores range from 1 through 36 and are provided for each test and a composite. Most ETHS students take the ACT at least once. The scores reflected in this report reflect ETHS's 2013, 2014 and 2015 graduates who tested under standard and extended time conditions. The highest test score is used for students who took the test more than once.

## ACT - College Readiness Benchmarks

A College Readiness Benchmark is the score on a subject test that indicates a $50 \%$ chance of earning at least a " B " or a $75 \%$ chance of earning at least a " C " in the corresponding creditbearing college course. The college courses are English Composition, Algebra, Social Sciences and Biology. English and Math scores are more highly correlated with college success than reading and science scores and are strong predictors of first year GPA in college (Bettinger, Evans \& Pope, 2011).

## EXPLORE TO ACT - Expected Gain

The ACT Assessment System provides ETHS with information about students' academic progress from eighth grade to their best ACT score in either eleventh or twelfth grade. Students took the EXPLORE assessment in grade 8 and this score is compared to the score they earned on the ACT. The expected gain from EXPLORE to ACT depends on the student's status in grade 8. Those whose EXPLORE scores indicate they are not on target for college and career readiness are expected to gain four points while those who are on target are expected to gain five points. The EXPLORE to ACT is an analysis of the gain in Composite scores. In 2014 ACT, Inc. discontinued the EXPLORE and PLAN assessments, therefore this is the last time that this data will be reported.

## Freshman On Track to Graduate

Students identified as "on track" have earned at least five full-year course credits (10 semester credits) and have earned no more than one semester " $F$ " in a core course (English, math, science, or social science). Freshmen on track can be a predictor of high school success. Students who finish the ninth-grade year on track are almost four times as likely to graduate from high school as students who are not on track (Source: Illinios Report Card).

## Graduation Rate

Four year graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who form the graduating class' adjusted cohort. The adjusted cohort includes all students who enter ETHS at the beginning of grade 9 and transfer in during grades 9 through 12, adjusted for the students who transfer out of ETHS in grades 9 through 12. Five year graduation rate uses the same formula but is based on the number of students who graduate in five years. The data reported here is taken from the Illinois Report Card.

## Advanced Placement Examinations

The Advanced Placement (AP) program gives ETHS students the opportunity to try college-level work while in high school. AP examinations are graded on a scale from 1 (lowest) to 5 (highest). Depending on the requirements of the post-secondary institution, students earning a 3, 4 or 5 may be awarded college credit. In August, 2015 the Illinois General Assembly passed a law requiring public institutions of higher education to provide college credit to students who received a score of 3 or higher on an AP exam.

## Students Continuing In School

The National Student Clearinghouse provides college enrollment data on ETHS graduates, including the percent of students enrolled in college the fall immediately after high school, at any time during the first year after high school, and any time during the first two years after high school. The report is typically available in December. Currently the most recent report provides data on 2013 graduates who continued in a post-secondary institution within two semesters of graduating from ETHS. Data on 2014 graduates is expected in winter 2015.

Goal 1: Increase each student's academic trajectory as demonstrated through multiple measures

## $100 \%$ of students will meet expected growth from EXPLORE to ACT

Summary:
Students whose EXPLORE scores indicate they are not on target for college and career readiness are expected to gain 4 points on the ACT, and students whose EXPLORE scores are on target are expected to gain 5 points on the ACT.

In 2015, 71\% of students met the expected growth on their ACT, compared to 74\% in 2014 and 75\% in 2013.

## $\mathbf{8 0 \%}$ of students will continue in school within two semesters of graduating high school

Summary:
According to National Student Clearinghouse data, about $82 \%$ of 2013 graduates continued in a post-secondary institution within two semesters of graduating from ETHS.

Data on 2014 graduates will be available in winter 2015.

## 100\% of students will meet or exceed ACT College Readiness Benchmarks in English

Summary:
In 2015, 74\% of graduating seniors met the ACT College Readiness Benchmark in English with a score of 18 or higher, compared to $71 \%$ in 2014 and $73 \%$ in 2013. By comparison, only $64 \%$ of graduating seniors nationwide in 2015 met the ACT College Readiness Benchmark.
